

Accudry¹⁷¹⁷

Standardised European tumble dryer

Accudry is the perfect partner for Wascator, providing you with repeatable and standard conditions for both washing and tumble drying.

This air-vented tumble dryer is used to simulate domestic laundering conditions and is designed to reduce machine and operator variables to the absolute minimum.

Designed With You In Mind

- Guaranteed compliance with standards and retailers' test methods
- Accurate and repeatable control of heating and cooling periods
- Precise control of exhaust air temperature
- Dual filtration system to avoid blockages
- Maintenance and UKAS-accredited calibration service
- Trouble shooting and spare parts support
